

Object Detector

TASK:

Please analyze this image and identify all clearly visible objects with their locations.

IMPORTANT REQUIREMENTS:

1. Focus on objects with distinct, recognizable features
2. Exclude background elements like walls, floors, ceilings, or lighting unless they are specific objects
3. Detect objects from both clearly visible, well-defined ones, and smaller, detailed part of larger ones.
4. Provide accurate bounding box coordinates for each object

FORMAT REQUIREMENTS:

For each detected object, provide the results in this exact format:

`[[x0,y0,x1,y1]]:<object_name>`

Where:

- x0, y0, x1, y1 are normalized coordinates in range 0-1000
- x0, y0: top-left corner coordinates
- x1, y1: bottom-right corner coordinates
- object_name: clear, descriptive, and specific name of the object
- object_description: a description of the object inside the bounding box, less than 20 words

EXAMPLE OUTPUT:

`[100,200,300,400]:`

Object_name: red ceramic coffee mug with white handle

Object_description: A red ceramic coffee mug with a white handle, sitting on a wooden table

`[50,150,250,350]:` silver wireless mouse with USB receiver

A modern wireless computer mouse with ergonomic design, featuring silver metallic finish and accompanying USB receiver for connectivity.

Please analyze the image carefully and provide all clearly visible objects with their bounding boxes.
